

Polar Bears

NEWSLETTER

Teacher's Corner

Dear parents,

Happy New Year!

It was very nice to welcome the Polar Bears back to the classroom. We're excited about new adventures, new topics to explore and learning together.

We will continue with our Letters and Sounds as well as developing all the areas covered in our weekly plans. We will focus on using English only in the classroom as all the kids are able to communicate in English (whatever level it may be). Our first week went very well, the kids were well behaved, followed the class rules and acted kindly towards each other.

We are very proud of them. We're looking forward to seeing them grow even more.

Have a nice weekend,

Katarina & Agnar

Weekly Themes

- A new year- 2021, a new start

News & Reminders

- We will continue with our weekly Show & Tell schedule as usual. The children can now bring items that have to do with our weekly topic.
- Please, make sure the kids are at school before 9:00am as our Morning circle starts at 9:00am.
- If you are late for an early dismissal, please, ring the teachers office or Lana's bell, the rest of the Polar Bears have their nap time.

What we're Learning

- We reviewed all the Letters & Sounds we've learnt so far.
- We took a closer look at our calendar and focused on numbers. We sang songs containing the numbers.
- We challenged the children's logical thinking as well as creative thinking by asking various kinds of questions and playing guessing games.
- The Polar Bears used their vocabulary by sharing their Holiday experiences and answering questions.
- The kids practiced their fine motor skills when making mittens based on the folk story by Jan Brett "The Mitten."

Reviewing the Letters & Sounds and recognizing the beginning sounds of some objects. After that, the kids wrote the letter on the white board.
