

4th Grade News

We had a spooky hard time spelling "Happy Halloween!"

English

In English we have officially started reading *Wonder*. We are no longer *wondering* what the book will be about because we are getting more familiar with the story and characters. We are answering questions, having discussions and preparing for more wonderful activities. We are also going to start looking at antonyms and synonyms and practice POV writing.

Science

In Science, we have started our human body unit. First thing we have to think about is the brain. We are learning how the brain really works with every system in the body and controls so much of what we do. We talked about the difference between the left brain and the right brain. Soon we will have a brain-teaser day full of mind bending fun!

Math

In Math, we are becoming fantastic factor finders. We are sharpening our multiplication facts for finding factors and multiples. We have started breaking down numbers all the way to prime factors. Soon we'll start comparing numbers and factors.

Reminders

- Pick-up/Drop off for book boxes will be every Wednesday 3:30-4pm. (Do not take the box home.)
- Students will receive a note on their progress every 2 weeks.
- Group parent meetings will be every other week (opposite weeks of the student notes).
